

DRUG DETECTION AND IDENTIFICATION

The Most Cost-Effective Field-Test Worldwide

Mistral Security, Inc.'s Drug Detection and Identification products provide the newest and most effective presumptive field tests for law enforcement, military, security agencies, corporate human resources departments and private residences.

Drug Detection and Identification products have the capability to identify an illicit substance as well as "detect" residues that cannot be seen. All wet chemistry products are highly sensitive with results appearing in just seconds and are based on colorimetric reagents that produce a unique color when they come into contact with narcotic substances.

The detection/identification process requires no technical background or special training; testing can be performed "on-the-spot" and is easy-to-use; simply WIPE, SPRAY/DROP and READ RESULTS. All products can be used both indoors and outdoors and in any weather condition.

Aerosols

Drug aerosol test technology detects both trace and substance levels of drugs. Our collection of Drug Detection products provide law enforcement officers and investigators with distinct advantages for field and laboratory use – they ensure a testing process that is convenient and efficient with immediate results.

PenTests

PenTests, an ampoule-based technology, contains the same chemistry technology as the Aerosols. The PenTest was designed for easy carrying and for situations that do not require multiple tests. The PenTest provides law enforcement officers, investigators and private entities distinct advantages for fast and accurate field use.

The PenTest Series is a set of single and multi-drug ampoule-based test kits which can detect the largest range of illicit drugs.

Presumptive Drug Tests (PDT)

A series of individual, presumptive reagent drug tests that help law enforcement officers, drug enforcement agencies and military CID units quickly and easily identify controlled substances while in the field. MSI provides customers with the most comprehensive, low-cost tests without sacrificing effectiveness.

Drug Test Capabilities

Drug Type	Aerosols	PenTests	Presumptive Drug Tests
Amphetamines, Cannabis, Narcotics, Opiates	D4D	D4D	n/a
Amphetamines, Narcotic Alkaloids	D4D	D4D	Mayer's; Marquis
Amphetamines	D4D	D4D	Mandeline
Barbiturates	Barbitusol	Barbitusol	Dille-Koppanyi
Bath Salts	D4D	D4D	MDPV; Mephedrone
Buprenorphine	D4D	D4D	n/a
Cocaine/Crack	Coca	Coca	Scott's
Ephedrine	D4D	D4D; Ephedrine	Chen's
GHB/GBL	n/a	n/a	GHB
Heroin: Black Tar	n/a	n/a	Mecke's
Heroin: White, Brown	D4D; Herosol	D4D; Herosol	Mecke's
Ketamine	D4D	D4D	Morris
LSD	D4D; Herosol	D4D; LSD	Ehrlich's
Marijuana	D4D; Cannabis	D4D; Cannabis	Duquenois-Levine; KN
Meth/Ecstasy	D4D; Meth-X	D4D; Meth-X	Methamphetamine; Ecstasy
Methadone	D4D; Herosol	D4D	Methadone
Methaqualone	n/a	n/a	Methaqualone; PCP
Codeine; Heroin, Morphine; Oxycodone	D4D; Herosol	D4D; Opiatest	Opiates
PCP	D4D; Coca	D4D	PCP
Pentazocine	D4D	D4D	Talwin
PMA	D4D	D4D	Lieberman's
Propoxyphene	D4D	D4D	Propoxyphene
Psilocybin	D4D	D4D	Psilocybin
Spice/K2	D4D	D4D	n/a
Vallium/Rohypnol	n/a	BZO	Valium/Rohypnol

Mistral Security, Inc. is a member of the Mistral Group, a team of independent companies, each operating in different markets worldwide, while collectively sharing the mission of "Bridging" operational gaps in the Defense and Law Enforcement Markets with practical, innovative, and high technology readiness solutions.
